

# Structure Fire Effective Response Force Louisville Fire Department

KPI Owner: Col. Doug Recktenwald

Process: Fire Response

Baseline, Goal, & Benchmark	Source Summary	Continuous Improvement Summary
<p>Baseline: TBD</p> <p>Goal: To have no more than 10% of structure fire incidents with an effective response time of more than 9 min 20 seconds.</p> <p>Benchmark: 90% of incidents with an effective response time of less than 9 minutes 20 sec.</p>	<p>Data Source: Firehouse</p> <p>Goal Source: NFPA 1710</p> <p>Benchmark Source: NFPA 1710</p>	<p>Plan-Do-Check-Act Step 3: Determine and quantify root causes</p> <p>Measurement Method: Defect rate: the number of times an effective response force was more than 9 min 20 sec divided by the total number of incidents in a given month.</p> <p>Why Measure: To ensure members are efficiently reacting to calls for service, to assess proper deployment of fire companies, and to ensure citizens of a timely response to emergencies.</p> <p>Next Improvement Step: TBD</p>

## How Are We Doing?

Jun2015-May2016 12 Month Goal	Jun2015-May2016 12 Month Actual		Apr2016 Goal	Apr2016 Actual	
<b>10%</b>	<b>22%</b>		<b>10%</b>	<b>11%</b>	
Defect Rate	Defect Rate		Defect Rate	Defect Rate	

## Structure Fire Effective Response Force

The seven basic quality tools, "5 Whys" technique, brainstorming and other methods will be applied to the measure graphed above. The purpose of using the tools/methods is to understand what makes performance less than desirable if performance is not best in class.
